- Taxpayer protection

2026 Massachusetts Ballot Questions

Question #	Question Topic	WRTC Position	Commentary
1	Public Records	YES	Apply public records rules more broadly to state government to promote transparency and accountability
2	CPCS Collective Bargaining	NO	CPCS serves an essential constitutional role, but a mandated bargaining requirement increases costs and reduces management flexibility
3	All-Party Primary	NO	Reduces meaningful party competition. Could eliminate multiple parties. Risks solidifying single-party rule
4	Election Day Registration	NO	Eliminates time necessary to verify eligibility and residency. Massachusetts already has automatic and on-line registration
5	Revenue Limit and Rebate	YES	Lowers the state revenue growth limit to return excess collections to taxpayers more often instead of allowing that revenue to become permanent government spending
6	Nature for All Fund	NO	This earmarks taxes from recreational product sales to a nature fund creating another protected spending silo outside of the normal budget process
7	Single-Family Homes	NO	This would override local zoning autonomy by allowing single family homes on 5,000 square foot lots and replace local planning with a statewide mandate
8	Recreational Marijuana Sales	YES	Would repeal the state law allowing recreational marijuana sales but retain marijuana for medical use
9	Firearms Regulation	NO	A No vote repeals Chapter 135 enacted without public input, imposing broad regulations, further encumbering law abiding citizens
